

+Nker

Technical Skills

Programming Languages:
Python, PLC (Programmable Logic Controller)

Tools/Software: Multisim, MS Office, Coppeliasim, ABB Studio, Jupiter notebook, Colab, CATIA V5

Domain Known: Front end development basics, Ladder Diagram, Hydraulics, Numatics, AI and ML, 3D Design

Certifications: ML (Machine Learning) with python, MS-Office, Personality Development and Placement Skill, Industrial Automation in Robert Bosch, IoT and Robotics – TANCAM (Taminadu Centre of Excellence for Advanced Manufacturing)

Education

B-Tech (Hons), Electronics and Communication Engineering with spec in Robotics and Industrial Automation

CGPA: 6.88

Periyar Maniammai Institute of Science & Technology

Languages

- Tamil
- English

Interests

- Content Creation
- Script Writing
- 3D Design
- Programing
- PLC and Automation
- Voice Over
- Creating Website

Keros M

An Electronics and Communication Engineering student scaling more toward Robotics and Industrial Automation including practicality in PLC programming, industrial automation, and machine learning. An innovative problem solver skilled in Python, CATIA V5 software for 3D design and Embedded systems. Actively looking for technical opportunities where I can leverage my skills in automation, AI, and circuit design for hands-on projects.

Work Experience / In-Plant Training

Industrial Automation

Robert Bosch, Thanjavur.

26 June 2023 – 14 July 23

- I learned about Hydraulics, Numatics, PLC (Programmable Logic Controller) Programming
- I done a Traffic Light Controller as a project

Machine Learning with Python

Prag Robotics Private Limited, Thanjavur

10 June 2024 – 9 July 2024

- I learned about Ai, Machine Learning and in that training, I learned to build a model in supervised and classification

Reverse Engineering

Tamil Nadu Centre of Excellence for Advanced Manufacturing – TANCAM

7 June 2025 – 7 July 2025

- I learned about 3d design in reverse engineering Concept

Courses

- Diploma in MS-Office
Computer Software Collage (CSC)
(14 May 2023–14 July 2023)
- Python language
Learned on application – Mimo
- HTML, CSS basics
Learned on application – Mimo
- C language
Learned on application – Solo Learn

Achievements

Participated in a World Record Event for Largest Oyilattam Dance
(27 January 2019)

Won on quiz competition – Fake Worrier
The Civic Games Lab

Participated in TECHNOXIAN World Robotics Championship 9.0

(29 August 2025–2 September 2025)

Competition Name: Maze Solver

Competition Location: Noida Indoor Stadium, Noida-

Participated in National Science Day

Project: Wireless Notice Board

(28 February 2023)

Projects

- ✓ Line Follower Robot
- ✓ Design and Fabrication of Bio Inspired Water Strider Robot
- ✓ IoT-Based Plant Monitoring System
- ✓ Traffic Light Control using Ladder Diagram
- ✓ Manually Controlled Humanoid Robot
- ✓ PLC-Based Automated Metal and Non-Metal Separator
- ✓ Price Prediction using Machine Learning
- ✓ Maze Solver
- ✓ Website Creation for Marutham Trust
(www.maruthamtrust.org.in)

Publications

A Comparative Survey along with design and fabrication of bioinspired Water Strider Robot

Published in International EPJ Web of Conferences
